I dispatched SPA (b) (6), (b) (7)(C) to the Yuma Sector Air Operations in order to obtain aerial photographs of the incident scene.

At approximately 11:38 a.m., I briefed FBI Agents (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) when they arrived on scene. At the conclusion of the post mortem examination at approximately 11:55 a.m. (MST), Dr. (b) (6), (b) (7)(C) listed the cause of death as multiple traumatic injuries and determined the manner of death in this case to be a homicide.

After the autopsy SPA (b) (6), (b) (7)(C) and I went the El Centro FBI Office to retrieve AGUILAR's personal effects and Border Patrol equipment. SA (b) (6), (b) (7)(C) released AGUILAR's radio, badge, credentials, and other miscellaneous personal effects to me. This transfer was documented on a FBI Property Receipt Form FD-597 (See

§11: pgs. 4-5). While there, I was able to measure AGUILAR's boots and determined that the boot's heel would have added 1¼ inches to his height.

On January 23, 2008, at approximately 7:00 p.m., SA (b) (6), (b) (7)(C) contacted me and informed that he desired to have SPA (b) (6), (b) (7)(C) look at a photo line-up of possible suspects in the case. SA (b) (6), (b) (7)(C) informed me that it was time sensitive because they believed that photographs of the suspect that was in Mexican custody would be released shortly. I contacted SPA (b) (6), (b) (7)(C) and arranged for him to meet us at the Yuma FBI Office. At approximately 7:45 p.m., (b) (6), (b) (7)(C) was provided with a form entitled, "Photographic Line-up, Instructions." (b) (6), (b) (7)(C) reviewed and signed the form. (b) (6), (b) (7)(C) was then shown a photo line-up containing (b) (7)(E) photographs of Hispanic males. (b) (6), (b) (7)(C) studied the photographs carefully, and then selected the photograph in the (b) (7)(E) position, stating that (b) (7)(E) looks similar to the driver of the Hummer." (b) (6), (b) (7)(C) asked (b) (6), (b) (7)(C) what he recognized about the subject in the photograph and (b) (6), (b) (7)(C) responded by stating, "The short hair and mustache, it looks like him (the driver of the Humvee.)" SPA (b) (6), (b) (7)(C) circled the photograph number one of Jesus NAVARO-Montes, then dated and initialed the photograph (See § 11: pgs. 19-20).

On January 25, 2008, Agents (b) (6), (b) (7)(C) and I went to the (b) (6), (b) (7)(C) located at (b) (6), (b) (7)(C) Arizona. (b) (6), (b) (7)(C) allowed (b) (6), (b) (7)(C) to examine and take measurements from a 2003 factory stock Hummer H2 that they had in their inventory. Stock B.F. Goodrich All Terrain T/A LT315/70R17 tires and rims were mounted on the H2, and no after-market modifications had been made to the vehicle. Measurements taken from the H2 were compared to the injuries sustained by AGUILAR. The plastic air intake covers were photographed in place and one was removed for illustrative purposes (See § 6, pgs. 114-116).

The Hummer H2 has a factory installed stock tow hitch which is located in a recess in the middle of the front bumper. The dimensions of the tow hitch were found to be approximately 3 inches by 3 inches. The dimensions of the tow hitch recess in the plastic bumper were found to be approximately 5 inches by 4 inches.

On January 19, 2008, at approximately 10:00 a.m., I arrived at (b) (7)(E). I was called out to investigate an incident involving a Federal Agent. Upon my arrival, I observed several vehicles from different agencies, many campers and all-terrain vehicle riders. CASE SUPERVISOR: (b) (6), (b) (7)(C), Supervisory Border Patrol Agent (b) (7)(E)

NARRATIVE:

On January 19, 2008, at approximately 9:30 a.m., I arrived at (b) (7)(E). I was called out to investigate an incident involving a Federal Agent. Upon my arrival, I observed several vehicles from different agencies, many campers and all-terrain vehicle riders. As I got closer to the incident site, there were several Border Patrol vehicles and a couple of Bureau of Land Management vehicles used to secure the scene as well as from the Imperial County Sheriff's Office and the California Highway Patrol. Yellow scene tape was also used to secure the scene in an effort to preserve evidence.

I took photographs of the scene until I made contact with SBPA (b) (6), (b) (7)(C) of the (b) (7)(E). He stated that (b) (7)(E) would take over primary investigative duties for the Border Patrol.

I was given permission by (b) (6), (b) (7)(C), Lead FBI Case Agent, to go in first and take pictures of the immediate scene during an initial walk through when everyone was assembled. The group included myself, BPA (b) (6), (b) (7)(C) (who placed temporary evidence markers down at the incident site at various points that had significant objects relating to the incident), CHP Officer (b) (6), (b) (7)(C), Acting Chief Patrol Agent Jeffrey A. CALHOON, Imperial County Sheriff's Deputy Sergeant (b) (6), (b) (7)(C) and FBI Agents (b) (6), (b) (7)(C). (b) (6), (b) (7)(C) took photographs of the perimeter of the scene and (b) (6), (b) (7)(C) conducted interviews of people on the perimeter of the incident site.

Once the coroner, (b) (6), (b) (7)(C), was ready, I took close-up photographs of the pocket items of AGUILAR as they were removed. I took photographs of the body and associated injuries (134 photographs). I assisted the coroner placing Luis AGUILAR into a body bag.

I was released from my duties at approximately 1:30 p.m.

NARRATIVE:

On January 19, 2008, at approximately 10:27 a.m., I arrived at (b) (7)(E). I was called out to investigate an incident involving the death of a Border Patrol Agent. Arriving on scene, several vehicles from local agencies, and campers with all-terrain vehicle riders were present. As I made my way through the scene checkpoint (managed by the Bureau of Land Management) I observed several vehicles from the United States Border Patrol, the Imperial County Sheriff's Office and the California Highway Patrol.

I was informed by (b) (6), (b) (7)(C) that SBPA (b) (6), (b) (7)(C) of the (b) (7)(E) (b) (7)(E) informed him that the (b) (7)(E) would take over primary investigatory duties for the Border Patrol. (b) (7)(E) offered to assist the (b) (7)(E) in documenting the scene, photographing evidence, and providing assistance to the primary investigative agencies arriving on scene.

I restructured the yellow perimeter tape with perimeter stakes, allowing vehicles used as anchor points to be released and moved out of the area. I located several rounds that came from a pistol magazine and placed temporary evidence markers. I photographed the scene perimeter and evidence at the scene. (b) (6), (b) (7)(C) assisted Special Agent (SA) (b) (6), (b) (7)(C) of the Federal Bureau of Investigation (FBI) with interviews of people who were present near the scene and witnessed the incident as it occurred. The Yuma Sector has just received information that federal authorities are now in custody of an individual, who may have had some degree of involvement in the death of Border Patrol Agent Luis Aguilar. Preliminary reports indicate that this suspect was taken into custody in Mexico by Mexican Authorities and later turned over to United States Federal Authorities.

UPDATE:

On Saturday February 2, 2008, agents assigned to the International Liaison Unit were advised by Mexican authorities that an H2 Hummer had been discovered near Los Algodones, Baja California. The vehicle was burned and stripped of most of its parts. ILU Agents responded to the location and took photos of the vehicle. The vehicle identification number (VIN) was obtained from the frame below the passenger door. This information revealed that the original color of this vehicle was Sunset Orange. This color is very similar to that of the Hummer that struck and killed Agent Aguilar on January 19, 2008. Record checks also revealed that the vehicle had not been reported stolen in the United States. The H2 Hummer, registered to a subject out of San Jose, California had however been reported stolen in Mexico.

Special Agent (b) (6), (b) (7)(C) of the San Diego FBI Evidence Response Team (ERT) was notified and stated that he would have his team in Mexicali, Baja California first thing Monday morning. The vehicle was towed and secured by Mexican authorities in Mexicali, Baja California pending a forensic examination

UPDATE:
Date: 02/04/08
Time: 1306

On Saturday February 2, 2008, agents assigned to the International Liaison Unit were advised by Mexican authorities that an H2 Hummer had been discovered near Los Algodones, Baja California. The vehicle was burned and stripped of most of its parts. ILU Agents responded to the location and took photos of the vehicle. The vehicle identification number (VIN) was obtained from the frame below the passenger door. This information revealed that the original color of this vehicle was Sunset Orange. This color is very similar to that of the Hummer that struck and killed Agent Aguilar on January 19, 2008. Record checks also revealed that the vehicle had not been reported stolen in the United States. The H2 Hummer, registered to a subject out of San Jose, California had however been reported stolen in Mexico.

Special Agent (b) (6), (b) (7)(C) of the San Diego FBI (b) (7)(E) was notified and stated that he would have his team in Mexicali, Baja California first thing Monday morning. The vehicle was towed and secured by Mexican authorities in Mexicali, Baja California pending a forensic examination by the (b) (7)(E).

Yuma Sector Staff was notified.

UPDATE:
Date: 01/22/08
Time: 1229

The Yuma Sector has just received information that federal authorities are now in custody of an individual, who may have had some degree of involvement in the death of Border Patrol Agent Luis Aguilar. Preliminary reports indicate that this suspect was taken into custody in Mexico by Mexican Authorities and later turned over to United States Federal Authorities.

On January 19, 2008, Senior Patrol Agent Luis Aguilar was (b) (7)(E) as a part of the Yuma Station IMPACT team in the (b) (7)(E). At approximately 9:20 A.M (MST), IMPACT units had observed two vehicles, a red Ford F-250 and a brown Hummer, come north

out of the sand dunes and suspected that the vehicles were drive through smuggling loads. The IMPACT units, including SPA Aguilar, positioned themselves to intercept the vehicles.

SPA Luis Aguilar and Border Patrol Agent (b) (6), (b) (7)(C) were positioned along the (b) (7)(E) near the entrance to the (b) (6), (b) (7)(C). When the two vehicles drove towards their location, SPA Aguilar deployed a controlled tire deflation device across the (b) (7)(E). The brown Hummer immediately accelerated and deliberately turned towards SPA Aguilar, who was on foot. SPA Aguilar was unable to avoid the vehicle and was struck.

At approximately 9:30 A.M., the (b) (7)(E) Station duty agent was notified via telephone by Supervisory Border Patrol Agent (b) (6), (b) (7)(C) that SPA Aguilar had been struck by a vehicle near the (b) (7)(E) on Interstate 8, near the (b) (7)(E) in the Imperial Sand Dunes Recreation Area. At approximately 9:35 A.M. SBPA (b) (6), (b) (7)(C) reported that SPA Aguilar had been seriously injured by the collision and that SPA Aguilar was receiving emergency medical treatment from fellow Border Patrol Agents and a Bureau of Land Management Emergency Medical Technician in the form of cardiopulmonary resuscitation.

Yuma Sector Communications, (b) (7)(E) immediately contacted emergency medical units and Life Flight was dispatched due to the seriousness of SPA Aguilar's injuries. (b) (7)(E) also contacted the California Highway Patrol and the Calexico Border Patrol to provide addition assistance.

The vehicle that struck SPA Aguilar was described as a brown in color Hummer, no known license plate. The second vehicle was described as a red in color Ford F-250 pickup with no plates displayed. The vehicles had entered the United States illegally south of the (b) (7)(E) at coordinate (b) (7)(E). The two vehicles drove to the (b) (7)(E) and accessed Interstate 8 at (b) (7)(E). They then drove west on Interstate 8 for a short distance before turning around in the median. After turning around, the vehicles exited Interstate 8 at (b) (7)(E) and drove to the (b) (7)(E) where the brown Hummer struck SPA Aguilar. The brown Hummer returned to Mexico at coordinate (b) (7)(E). The red Ford F-250 returned to Mexico at coordinate (b) (7)(E).

At 9:35 A.M. (b) (7)(E) Station Patrol Agent in Charge (b) (6), (b) (7)(C) and Assistant Patrol Agent in Charge (b) (6), (b) (7)(C) were notified of the incident. The International Liaison Unit (ILU), (b) (7)(E) and Mexican authorities via (b) (7)(E) were contacted and advised of the incident including a description of the suspect vehicles. At 9:40 A.M. Field Operations Supervisor (b) (6), (b) (7)(C) departed (b) (7)(E) Station to provide assistance at the scene of the incident. ILU contacted CISEN, AFI, and Baja California state authorities to assist in the search for the vehicles in Mexico.

(b) (7)(E) Emergency Medical services arrived on scene at 9:57 A.M. and SPA Aguilar was pronounced dead at 9:58 A.M. The Customs and Border Protection Situation Room was immediately notified of the incident at 9:58 A.M.

Air support was requested to assist in the location of the two suspect vehicles and CBP Air and Marine assets responded from Yuma at 10:15 A.M. FROM STAFF AND AP REPORTS

January 20, 2008 - 11:01PM

The U.S. Border Patrol agent killed after being struck by a smuggling vehicle was identified Sunday as Senior Patrol Agent Luis Aguilar, a husband, father and six-year veteran of the agency.

Aguilar was born and raised in El Paso, Texas. He came to the Yuma area to serve in the Border Patrol and lived here with his wife and two children.

"Today we mourn the loss of one of our own," Border Patrol Chief David Aguilar (no relation) said in a statement. "This serves as a tragic reminder of the dangers our agents face every day while securing our nation's border and our way of life."

U.S. Homeland Security Secretary Michael Chertoff issued a statement on Aguilar's death as well, calling it a "heinous act" of increased violence in response to tougher border security.

Aguilar was killed Saturday near Gray's Well Road in the Imperial Sand Dunes Recreation Area, about eight miles west of the Andrade port of entry on the California-Mexico border.

His death is the first in the line of duty for the U.S. Border Patrol in 2008.

He was laying spike strips across the road in an attempt to stop two fleeing smuggling vehicles. One of them, a Hummer, struck and killed him.

Both vehicles fled into Mexico. The FBI is leading the investigation, along with other federal, state and local authorities. Mexican authorities are lending their full support to capture those involved, according to Border Patrol officials.

It was a clear Saturday afternoon at The Imperial Sand Dunes Recreation area just outside Yuma when Julie and Devin Breinholt saw a Border Patrol Agent deploy stop sticks just 25 feet from them and four of their eight children.

"It was scary on all levels, in fact, there's no level it's not scary," said Julie Breinholt.

In an instant, the mother of eight says her husband grabbed two of their young boys when they saw a hummer racing towards the agent.

"There was no slowing, there was no stopping anything. The hummer was

just — boom — going through," said Breinholt.

The family then watched with horror as the large SUV moved to avoid the spike strips and hit 32-year-old Luis Aguilar.

15-year-old Brienne Breinholt said she'll never forget what she saw. "When I saw it happen, at first it didn't seem real to me. It seemed like a movie. I saw it just hit him and then he rolled under the truck and it just took off."

Devin Breinholt said after the Hummer took off he ran over to help other officers perform first aid to no avail.

He said Aguilar was face down in the sand. He eventually left Aguilar to be tended to by paramedics and retrieved the agent's gun that was thrown several yards from the crash scene.

The Gilbert family is still trying to comprehend what they saw and why it happened.

"When I was actually watching the officer get hit it was so fast that I didn't register exactly what I was watching," said Julie while sitting in her living room surrounded by her husband and children.

Two of the Breinholt's daughters say they think about the incident frequently.

"Life can end at any time and you don't know when life can end."

The man who investigators say hit Aguilar is in custody.

He's been identified as a 22-year-old Northern Mexico man who apparently confessed.

Investigators say Jesus Navarro drove the Hummer into the United States illegally, killed Aguilar and turned back into Mexico.

The Hummer was found burned days later.

Mexican Authorities Arrest Man in Killing of Border Patrol Agent

Wednesday, January 23, 2008

Associated Press

MEXICO CITY —

Mexican authorities said Wednesday they have arrested a man for the weekend killing of a U.S. Border Patrol agent who was run over by a suspected smuggler's vehicle.

Agent Luis Aguilar, 32, was placing spike strips in the path of two vehicles believed to have illegally entered the United States from Mexico on Saturday when one of the vehicles struck and killed him, authorities in Arizona said.

Mexican federal and state police arrested Jesus Navarro Montes on Tuesday in the northern state of Sonora for the killing, according to a joint statement distributed Wednesday by Mexico's federal Attorney General's office and Public Safety Department.

Authorities believe Navarro left Mexicali in Baja California and was headed for the U.S. in a Hummer carrying drugs on Saturday, the statement said.

After allegedly running over Aguilar, Navarro, 22, drove to Mexicali and gave the Hummer to accomplices for safekeeping, said a spokesman for Attorney General's office who could not be named according to departmental rules.

The official said Navarro acknowledged hitting the agent and has been taken to Mexicali.

Navarro had previously been detained and jailed for smuggling 10 undocumented migrants into the U.S., and there was a warrant for his arrest in Mexicali for human trafficking, the statement said.

Earlier, Border Patrol Agent Michael Bernacke, a spokesman for the agency's Yuma sector, said Aguilar was hit while he was trying to stop a suspected smuggler the Imperial Sand Dunes Recreation Area about 20 miles (32 kilometers) west of Yuma, Arizona.

In Yuma, Border Patrol officials declined comment on Wednesday, referring calls to the FBI in San Diego, which was leading the U.S. investigation.

An FBI spokeswoman did not respond immediately to an e-mail request for comment.

Bernacke said Aguilar was trying to place spike strips in the path of a Hummer and a Ford pickup truck on Interstate 8 when the suspected smuggler's vehicle hit and killed him.

Both vehicles fled into Mexico.

The Imperial Sand Dunes are the largest dunes in California, extending north of the border for 40 miles and averaging five miles wide. The area is popular with off-road vehicle enthusiasts but also is frequently used by smugglers.

House resolution honors fallen patrolman

House resolution honors fallen patrolman

FROM STAFF REPORTS

January 30, 2008 - 9:22PM

A resolution introduced in the U.S. House of Representatives this week honors Luis Aguilar, the Yuma Border Patrol agent killed recently when he was struck by a smuggling vehicle in the Imperial Sand Dunes.

Yuma County's U.S. representative, Raul Grijalva, said House Resolution 954 not only acknowledges the loss suffered by Aguilar's family. It also recognizes the dangers faced by Aguilar's colleagues in the Border Patrol and other law enforcement officers working on the border at a time of heightened violence.

"This is a tough thing," said the Tucson Democrat, who co-sponsored the resolution with U.S. Rep. Zoe Lofgren, D-Calif. "(Officers) are up against organized crime and these types of tragedies are not only felt by the family, but by the whole community."

Aguilar, 32, was killed Jan. 19 while struck in Imperial Sand Dunes by a Hummer as he was laying down spike strips to stop the vehicle. The Hummer had turned off Interstate 8 into the Imperial Sand Dunes in an effort to elude U.S. agents who suspected it of having tried to smuggle drugs or illegal aliens into the country from Mexico, the patrol said.

The Hummer was found abandoned partially burned in a neighborhood near Mexicali, Baja Calif. The suspected driver of the Hummer, Jesus Navarro, 22, was later arrested in southern Sonora.

He will be held over in Mexicali for trial on unrelated migrant smuggling charges rather than being extradited immediately to the United States to face charges in Aguilar's death, Mexican authorities said.

The U.S. Attorney's Office in San Diego and San Diego's FBI office, which would be involved in efforts to extradite Navarro, declined comment Wednesday afternoon.

Last week, law enforcement officers from around the Southwest gathered in Yuma for a memorial service for Aguilar, after which his body was scheduled to be taken to his hometown of El Paso, Texas, for burial.

The resolution was introduced Tuesday and has been referred to Homeland Security Committee.

"I anticipate it will be to the (House) floor very quickly, hopefully this week or next week," Grijalva said, after which it would move to the U.S. Senate

"I anticipate no resistance, no opposition and that this will go through quickly. I think it's important to the family, to Somerton (where members of Aguilar's family lives) and to Yuma County as a whole to acknowledge the loss of their own."

Once passed, the resolution would be included in the Congressional Record.

The resolution is as follows:

HOUSE RESOLUTION 954

"Honoring the life of senior Border Patrol agent Luis A. Aguilar, who lost his life in the line of duty near Yuma, Arizona, on January 19, 2008.

"Whereas Luis Aguilar was born in El Paso, Texas, on November 26, 1976, to Luis Aguilar and Cecilia G.

Desert Drug Runners Cross an Open Border

IMPERIAL SAND DUNES, Calif. —

As the U.S. tries to wall off the border with Mexico to stop illegal immigration, there is a glaring hole where Arizona, California and Mexico intersect, a notorious drug corridor that agents are desperately trying to fix.

The Imperial Sand Dunes Recreation Area is a geographical anomaly, a network of sand dunes stretching 45 miles from northern Baja Mexico into parts of the two border states. On weekends the area can attract more than 100,000 visitors in ATVs, dune buggies and sand rails.

• [Click here to view photos.](#)

Off-roaders love the terrain in the unmarked wilderness area, and they frequently drive their recreational vehicles across the border into Mexico without incident. Desert winds shift the sands and often cover their tracks.

Drug smugglers have taken note, and are dressing up in the full leather gear and masks used by the off-roaders. They blend in with the crowd, carrying kilos of cocaine and marijuana in their ATVs and SUVs.

"We have alien smugglers and narcotic smugglers that try to mix in with legitimate folks and try to hide their activities so they can get up to the border," said Paul Beeson, chief of the Yuma sector for U.S. Customs and Border Protection. "They are wearing the same helmets just like legitimate traffic, the same sport ATVs, and they are driving the same vehicles."

While the number of illegal immigrants arrested in Yuma, Ariz., is down dramatically from 56,085 in 2006 to just 5,159 this year, smugglers in the dunes have proven stubbornly persistent. Last year, agents intercepted 48,000 pounds of drugs in the area, mostly marijuana. But not without a cost.

In January, two drug runners, one in a Hummer and another in a Ford F-150, were racing to the border and veered into Agent Luis Aguilar as he tried to lay a spike strip. Aguilar died at the scene, leaving behind a wife and two children. Just one week earlier, police had seized 91 ATVs and dirt bikes in nearby Mexicali used to move narcotics through the dunes.

Some have proposed closing 8,000 acres of the recreation area, but off-roaders don't want to lose their already-dwindling playground.

"I am a huge supporter of getting the border secured," said Lisa Markley, from Rancho Santa Margarita, Calif. "But it really gets me upset they are not only breaking the law coming into this country, but they are putting me in danger. I think it is important to keep this open for everyone, but I really would rather go home at the end of week rather than in a hospital or body bag."

With a newly erected triple border fence in San Luis, Ariz., credited with knocking down human traffic, Beeson has beefed up the sand dunes area with ATV teams and 25 agents.

Border agents have plugged the hole for now, given that the busy season is over, Beeson said. He hopes an additional ground radar system coming later this year will help separate America's weekend warriors from Mexican cartels waging war on our southern border.

Status of suspect in agent's death still uncertain

By Diana Washington Valdez / El Paso Times

The U.S. agencies in charge of investigating the death of a Border Patrol agent from El Paso would not comment Wednesday on the status of a possible U.S. extradition proceeding or charges against a Mexican suspect in the case.

The suspect, Jesus Navarro Montes, was in the custody of Mexican authorities in Mexicali, but a judge there freed him two weeks ago because there were no charges or extradition proceedings pending against him related to Senior Border Patrol Agent Luis Aguilar Jr.'s death.

"We cannot comment on this because it is an ongoing investigation," said Debra Hartman, spokeswoman for the U.S. Attorney's Office in San Diego.

U.S. authorities said Navarro is suspected of running over Aguilar with a Hummer on Jan. 19 near Yuma, Ariz., while Aguilar was seeking to stop the vehicle that allegedly crossed the border illegally.

The FBI in San Diego -- the lead U.S. law enforcement agency in the case -- also would not say whether its investigation was finished.

FBI Special Agent Darrell Foxworth, spokesman for the law enforcement agency in San Diego, said he could not comment on a pending

investigation.

Authorities have not disclosed if a federal indictment was issued against Navarro. Sometimes such an indictment is sealed until a defendant is arrested on the charge.

Homeland Security Secretary Michael Chertoff condemned Navarro's release.

Mexican officials said last week the judge who set Navarro free could not hold him longer without an extradition request or other charge against him.

Former DEA official Phil Jordan said extradition proceedings are complex and sometimes require time to assemble properly.

Luis Aguilar Sr., the deceased agent's father in El Paso, said he remains in the dark about his son's case. "None of them (authorities) have told me anything about how the investigation is going or anything else," Aguilar said.

Mexico says U.S. tried to extradite Navarro too late

Mexico says U.S. tried to extradite Navarro too late

ASSOCIATED PRESS

July 10, 2008 - 6:54PM

TUCSON - The United States did not ask Mexico to arrange for a suspect's extradition in the death of a Border Patrol agent until the man had been freed, a Mexican government spokesman said Thursday.

Ricardo Alday, spokesman for the Mexican Embassy in Washington, said U.S. officials presented Mexican authorities "with a provisional arrest request for extradition purposes" for Jesus Navarro Montes in late June.

Alday said that request came more than a week after a Mexican judge cleared Navarro of an unrelated migrant smuggling charge and released him from a prison in Mexicali, Mexico.

Alday's announcement came hours after 39 U.S. congressmen wrote President Bush and Attorney General Michael Mukasey asking if the government had asked Mexico to extradite Navarro.

It also occurred shortly after Justice Department spokesman Peter Carr said the department would review the congressmen's letter and that it remains committed to investigating agent Luis Aguilar's death.

"As with all ongoing criminal investigations, we cannot provide details with respect to the nature or timing of possible charges or other actions against any possible defendant or defendants," a statement from Carr said.

After-hours calls to Carr and another Justice Department representative were not returned immediately.

Alday said Navarro's June 18 release came five months after his initial arrest on human smuggling charges in Mexico.

Last month, Alday said Navarro was released after the U.S. government failed to issue an arrest warrant, provide evidence or contact Mexican authorities to seek extradition.

U.S. authorities allege Navarro's Hummer struck and killed Aguilar on Jan. 19 as the agent tried to stop suspected drug smugglers by setting spike strips on a road.

Navarro was later arrested in Mexico.

The letter from California Rep. Brian Bilbray noted the congressmen's concerns over Navarro's release and Mexican Embassy spokesman Ricardo Alday's statement. The lawmakers want an accounting of communications between U.S. and Mexican officials.

Bilbray is a Republican who heads the Immigration Reform Caucus, a group of lawmakers who support tougher immigration laws.

The letter noted that the spokesman "stated publicly that the U.S. government has not issued an arrest warrant, provided evidence or contacted Mexican authorities regarding extradition either formally or informally. Mexican officials publicly claim that the mistake was made on the U.S. side of the border."

Bilbray said he and the executive director of the caucus have "received absolutely no information from the Department of Justice or the White House" in response to numerous requests made since June 27.

Alday declined to comment on why American and Mexican officials had delayed making public the

provisional arrest request for extradition.

The U.S. Attorney's Office in San Diego, which has been in charge of investigating Aguilar's death and has refused any comment, referred calls to the Justice Department. So did the White House media affairs office.

Bilbray requested "a full report of all activities and correspondence the U.S. government has had with the Mexican government" in the case. His letter also asked whether the U.S. had issued an arrest warrant and had contacted Mexican authorities about extradition, or who was responsible if the Justice Department had failed to contact Mexican authorities.

Reached Thursday night in Washington, Bilbray said it appeared that federal officials were trying to cover themselves "sort of a day late and a dollar short" after having erred.

Aguilar was "murdered in the course of his duties" as a sworn officer representing the nation "and we have an obligation" to see whether the suspect was responsible and to achieve justice for Aguilar, Bilbray said.

He also said he doesn't mind Justice officials "not telling us what's getting done as much as I mind them not getting the job done... when they're not telling us what's going on because they're busy covering their you-know-what."

Alday said his government was working cooperatively with an ongoing intensive search for Navarro, whose whereabouts are unknown.

"Once he's located, the arrest warrant based upon the provisional request for extradition purposes will be executed," Alday said.

Congress seeks answers in border agent's death

Dozens of members of Congress on Thursday sent a letter to President Bush and the U.S. attorney general asking why a man accused of running over and killing Border Patrol Agent Luis Aguilar Jr. of El Paso has not been extradited from Mexico.

Jesus Navarro Montes is accused of driving a drug-loaded vehicle that struck and killed Aguilar on Jan. 19 west of Yuma, Ariz., but he was released June 18 from a jail in Mexicali, Baja California, because U.S. authorities had apparently not requested his extradition.

"I have spoken directly to Border Patrol Chief (David) Aguilar and Mexico's attorney general, who has assured me that the Mexican government is committed to bringing Jesus Navarro Montes to justice," said Rep. Silvestre Reyes, D-Texas.

Reyes was not among the nearly 40 members of Congress who signed the letter but has been active in the matter, his office said.

"Mexico's minister of foreign affairs will participate in the Border Security Conference at UTEP in August, and I plan on addressing this

issue with her," Reyes said. "We will continue to work with Border Patrol and Mexican officials to monitor developments in this case."

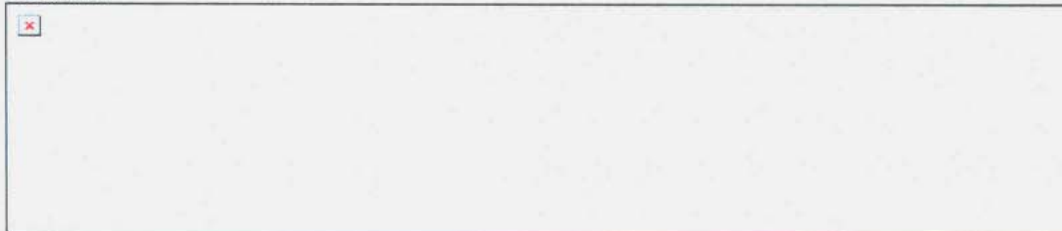

The letter, written by Rep. Brian Bilbray, R-California, questions whether the Department of Justice failed to contact Mexican authorities.

"To date, we have received absolutely no information from the Department of Justice or the White House. While we are waiting to hear back, the suspected murderer of a Border Patrol agent remains free," Bilbray's letter stated. Bilbray is chairman of the conservative Immigration Reform Caucus, which deals with illegal immigration.

Ricardo Alday, spokesman for the Mexican Embassy in Washington, said that U.S. authorities presented Mexican officials "with a provisional arrest request for extradition purposes" for Navarro in late June. But the request came more than a week after a Mexican judge cleared Navarro of an unrelated immigrant smuggling charge and released him from prison, Alday told the Associated Press late Thursday.

Comments:

NAVARRO-Montes has been apprehended on approximately 27 different occasions by the Calexico and Yuma Border Patrol Stations. NAVARRO-Montes has been formally removed from the United States to Mexico twice. NAVARRO-Montes was first formally removed on December 12, 2005, through the Calexico Port of Entry. The second removal took place on November 24, 2006, through the Nogales Port of Entry.

NAVARRO-Montes was arrested by Mexican authorities on January 22, 2008, in Sonora, Mexico. NAVARRO-Montes was detained by Mexican authorities in a Mexicali prison, on unrelated alien smuggling charges. On June 18, 2008, Mexicali Federal Judge Laura SERRANO-Alderete cleared NAVARRO-Montes of those charges and he was subsequently released. The United States government was notified of his release on June 22, 2008.

On February 11, 2009, Mexican federal agents rearrested NAVARRO-Montes on unspecified drug charges near the resort town of Zihuatanejo, Guerrero, Mexico. This was accomplished through the bi-national effort between US and Mexican authorities. NAVARRO-Montes is currently awaiting extradition for drug smuggling charges and is still the prime suspect in the slaying of US Border Patrol Agent Luis Aguilar.

Subject NAVARRO-Montes, Jesus, was encountered as part of a group of 29 individuals in two different vehicles. NAVARRO was apprehended in one of two Ford Broncos that drove across the international boundary approximately 25 miles east of the Calexico Port of Entry. An orange Bronco was the second of two vehicles that crossed the border and proceeded north to (b) (7)(E). The first vehicle, a red Ford Bronco pulled up to the (b) (7)(E) and cut the locks on the gate. Both vehicles then crossed the (b) (7)(E) and proceeded north. Tire deflation devices were deployed just north of the drop and both vehicles were hit. The red Bronco entered Interstate 8 and continued westbound. The orange Bronco turned around and tried to return back south to Mexico but became stuck in the soft sand. Supervisory Border Patrol Agent (b) (6), (b) (7)(C) made a vehicle stop on the red Bronco. The Bronco yielded without incident on Interstate 8, about 2 miles west of (b) (7)(E). A total of 29 individuals were apprehended in both Broncos.

NAVARRO admitted illegal entry into the United States and stated he is a citizen of Mexico.

Agent (b) (6), (b) (7)(C) then observed NAVARRO gesturing the route to take and then falling in to the middle of the group. (b) (7)(E)
(b) (7)(E)

Agent (b) (6), (b) (7)(C) along with SPA (b) (6), (b) (7)(C) and SPA (b) (6), (b) (7)(C) responded to the location of the subjects. Upon approaching the subjects, Agent (b) (6), (b) (7)(C) identified himself as a Border Patrol Agent and conducted an Immigration Inspection. All six subjects claimed to be natives and citizens of Mexico. The subjects were then transported to the (b) (7)(E) Border Patrol Station for processing.

The vehicle was subsequently stopped at the intersection of (b) (7)(E). At that time all occupants of the Tahoe bailed out of the vehicle and attempted to flee on foot in a field.

After a short chase SPA (b) (6), (b) (7)(C) was able to apprehend all occupants in the field. At that time Agent (b) (6), (b) (7)(C) identified himself as a Border Patrol Agent and determined that all people apprehended were natives and citizens of Mexico without the proper documents to enter, be in, work, or reside in the United States legally. At total of seventeen aliens were apprehended in the field. All aliens were transported to the (b) (7)(E) Station for processing.

On December 4, 2005, I, Senior Patrol Agent (b) (6), (b) (7)(C) was assigned to the (b) (7)(E) and I was working in the area known as (b) (7)(E) which is approximately 12 miles east of the (b) (7)(E) Port of Entry. At approximately 9 p.m. (b) (7)(E) I was sitting just north of (b) (7)(E) on the north side of (b) (7)(E). This area is known for aliens crossing the International Boundary and loading into vehicles near (b) (7)(E). I asked the (b) (7)(E) if they could see anyone coming across the (b) (7)(E) and going north. (b) (7)(E) (b) (6), (b) (7)(C), (b) (7)(E) said that there was a group north of (b) (7)(E) holding near a tree. (b) (6), (b) (7)(C) then advised me 11 individuals got into a vehicle that looked like a van and starting to travel north along (b) (7)(E). I advised him that I was traveling south on the west side of (b) (7)(E) towards the vehicle. (b) (6), (b) (7)(C), (b) (7)(E) advised me that the people in the vehicle all jumped out of the vehicle and went into the field on the east side of (b) (7)(E).

I approached the vehicle and confirmed that there were no individuals inside. All the seats in the back of the vehicle were removed from the van. I looked out into the field and saw 9 individuals lying down along the field trying to conceal themselves. I approached the individuals and identified myself as a United States Border Patrol Agent. I asked the individuals their citizenship to which they all stated they were a citizen and national of Mexico with no documents to work or reside in the United States. (b) (7)(E) (b) (6), (b) (7)(C), (b) (7)(E) advised me that two individuals went back south near (b) (7)(E) and were running eastbound into the brush line. I followed the sign and located two individuals, one of which was a guide, later identified as NAVARRO-Montes, Jesus Albino. I identified myself as a Border Patrol Agent and questioned them as to their citizenship to which they stated they were citizens and nationals of Mexico with no documents to work or reside in the United States.

NAVARRO and the 10 other individuals were placed under arrest and transported to the (b) (7)(E) Border Patrol Station for further processing.

IMMIGRATION HISTORY:

26 prior apprehensions U.S. Border Patrol

illegally. NAVARRO was arrested and transported to (b) (7)(E) Border Patrol Station for further processing.

Upon arrival at (b) (7)(E) Station NAVARRO had his biographical data entered into the (b) (7)(E) System and his fingerprints entered into the (b) (7)(E) System. The (b) (7)(E) System returned a Candidate Match for NAVARRO indicating a prior arrest record under FBI Number (b) (6), (b) (7)(C), (b) (7)(E). Record checks were ran through the (b) (7)(E) and returned positive for NAVARRO under Afile Number (b) (6), (b) (7)(C), the (b) (7)(E) (b) (7)(E) showed that NAVARRO had been Excluded from the United States to Mexico on 12/12/2005.

I questioned NAVARRO as to his citizenship and he stated that he was a citizen and national of Mexico and no other country. NAVARRO stated that his parents were citizens and nationals of Mexico and no other country. Neither NAVARRO nor his parents have ever been citizens or nationals of a country other than Mexico.

I questioned NAVARRO as to his last entry into the United States and he admitted to entering illegally by crossing the International Boundary with Mexico east of San Luis, Arizona on or about 11/02/2006. NAVARRO further explained his manner of entry by stating that he had entered illegally in a vehicle with more than 20 other people. I reviewed the above stated IMMIGRATION HISTORY with NAVARRO and he admitted that it pertained to him. I asked NAVARRO if he had applied to the Attorney General of the United States or the Secretary of the Department of Homeland Security for permission to re-enter the United States after having been Excluded and he said that he had not applied for permission.

Additional information obtained through the (b) (7)(E) system showed that NAVARRO has been apprehended on 25 prior occasions. A sample of four specific apprehensions within the (b) (7)(E) Sector, (b) (7)(E) Station Area of Responsibility (AOR) showed that on each of those four occasions NAVARRO had been apprehended as part of a 'drive through' illegal alien smuggling load that had illegally entered the United States in the (b) (7)(E) (b) (7)(E) AOR. A sample of two apprehensions that occurred within the (b) (7)(E) Border Patrol Station AOR revealed an identical pattern of illegal activity that is consistent with that of an illegal alien smuggler. An (b) (7)(E) (b) (7)(E)

(b) (7)(E) The apprehension record of NAVARRO statistically supports that assertion with numerous recorded apprehensions within the (b) (7)(E) AORs in addition to those already indicated concerning (b) (7)(E) Border Patrol Station.

NAVARRO is being presented for Removal Proceedings under 8 USC 1182.
